CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Parking Areas And 2 Roads Get Tread

Two more stretches of roads in the Glades will be retreaded within the next few weeks, according to County Commissioner Paul Rardin, who was in Tallahassee last week when the contract was let for retreading SR 715 from the Baptist Church in Pahokee south to East Shore Pump and SR 15 in Pahokee from Vandegrift-Williams Office out to the Railroad crossing at the FP&L Company plant.

Rubin Construction Company of West Palm Beach was the successful bidder, according to tabulation by State Road Department and work should start within the next few weeks or as soon as a work order can be processed in Tallahassee by the SRD. Included in the SR15 job are several parking areas near Ixora Park No. 1 and Ixora Park No. 2, Palm Beach County, under Rardin's direction, has been cooperating with the City of Pahokee in getting the areas ready for the blacktopping.

Commissioner Rardin is responsible for the addition of the parking areas into the upcoming contract as this money will come out of Secondary Road funds and is spent at the direction of the county commission.

Retread jobs were recently completed on the road between South Bay and Belle Glade, the road between Belle Glade and the Country Club golf course out to the dike.

Construction work has started in South Bay on the \$25,000.00 traffic control intersection which will be modernized completely. Four laning with drainage, sidewalks, curb and gutter will make the Section of SR80 and US27 within the city limits one of the finest roads in the county, Rardin said. This contract is being executed by the F. A. Chastain Company of Miami.

Mr. Bush came to Pahokee with his family from Colquitt, Ga., in 1924. He was a member of the Pahokee First Baptist Church. Survivors include his wife, Ruby two sons, Jack and Bobby Bush, all of Pahokee; one daughter, Miss Betty Bush, Jacksonville; four brothers and seven sisters.

No Extension Tag Sales Says Collins

Gov. LeRoy Collins stated this week that he does not plan to extend the time for buying auto tags this year because there is no good reason for the extension. Last year he extended the time because of the bad freeze which brought about unusual economical conditions in Florida. But, no extension this time.

There remain only a few days in which to buy tags and they are available in the Glades at the Glades Office Building in the office of Stelson O. Sproul, tax collector. The office is well staffed and ready to serve the motorists. To date sales have been about normal and a last minute rush is expected. However, with the governor's ruling that no time extension will be made, in all probability motorists who don't want to be embarrassed had better make that necessary purchase today.

Seahawks Edge Blue Devils 34-32

The Seacrest Seahawks required an overtime period at Delray Beach Tuesday night to edge the Pahokee Blue Devils, 34-32, in a low scoring basketball game that saw Pahokee's Forward Alvy Early hit the basket with a field goal to tie the score with only eight seconds left in the regular game period. Early led the Blue Devils scoring with 16 points. The Seahawks had an easy time in winning the preliminary B game, 67-33.

Alvy Early was also high man on Friday night, accounting for 24 points in the Blue Devils' victory over the Belle Glade Golden Rams. The Pahokee B team lost to the Rams in a close, 48-44, contest.

The Blue Devils will be host in the Pahokee gym to the Clewiston Tigers this Friday night and to St. Ann's of West Palm Beach, Saturday night. On Tuesday night, night, Feb. 10 they will travel to Lake Worth for a return game with the Trojans.

Al Robinson New Member Of Lions

Alfred B. Robinson, manager of Pahokee's radio station, was received as a new member of the Pahokee Lions Club at the Tuesday luncheon meeting held in the Women's Club building with President E. B. Simonson presiding. Tom Kirkham of Winter Park, secretary of the Florida organization of Lions International, was in charge of the ceremony inducting Mr. Robinson into Lionism.

Paul Tillery, who is in charge of the club's current scrap metal drive for the benefit of the Royal Palm School, turned in to the club \$55 collected through the sale of scrap metal during the past week, this increasing the total collected for the school to date to approximately \$400.

Wiley Tillis, a visitor representing the Chamber of Commerce, suggested that the Lions join other civic groups in a joint petition to the State Road Department to correct extremely dangerous highway hazards in the Glades area, especially where open and very deep canals border State highways with no barrier separating the highway from the canal.

Curtis Chase was in charge of program arrangements.

Post Office Space Sought By Pahokee

At the February meeting of the Board of Directors of the Pahokee Chamber of Commerce, held in the Civic Building Monday night with President Helen Hillier presiding, a letter was read from Rep. Paul G. Rogers in which he assured the board that he was doing everything he could to assist in getting more adequate space for the Pahokee Postoffice. In his letter he quoted the Atlanta Regional office of the Postoffice Department as stating that a recent "space survey" indicated the need of additional space in the Pahokee Postoffice and the Regional Office is now in the process of obtaining adequate quarters for this facility.

Wiley Tillis recommended that the Pahokee Chamber join other civic groups in the Glades in a concentrated effort to get the State Road Department to correct, eliminate or lessen highway hazards that are causing so many deaths in highway accidents in the Glades area, especially by drowning in the open and very deep canals that border many of the Glades roads.

Preliminary plans were discussed for the annual membership drive that will get under way later in the spring. The board voted to hold its regular monthly meetings on the first Monday of every month a half hour earlier than has been the custom in the past, future meetings to start at 7:30 p. m. instead of 8 o'clock.

Rev. Daniel Still Speaks On Finland

The Rev. Daniel Still of Finland, who is making a study of American Churches while touring the United States with his wife, was guest speaker at the February meeting of the Pahokee Methodist Woman's Society of Christian Service held at the church Monday with Mrs. Duncan Padgett, president, presiding.

Introduced by Mrs. H. J. Anderson, chairman of the Margery Lair Circle, the speaker told of the religious activities in Finland where the Lutheran sect is predominate. Although their company is overshadowed by the atheistic Soviet Union, the people of Finland on the whole are serious-minded, devoutly religious and firmly believe in the power of prayer, and it is largely because of this attitude that they have been able to preserve their freedom, he said. In commenting on the political scene in Finland, the Rev. Still said that the Farmers' Party was the strongest political group and although the Communist Party is recognized and is active, it is not very strong in Finland at the present time. Following his talk, the speaker answered questions from the floor.

The president, Mrs. Padgett, presented to the Rev. and Mrs. Still a love gift from the WCSS.

Mrs. Robert C. Hutton was in charge of the devotionals. The Margery Lair and Mabel Simonson Circles tied for the monthly attendance honor.

Following the meeting Mrs. John Padgett and Mrs. Duncan Padgett were in charge of the serving of refreshments for the Margery Lair Circle, hostess group for the month.

Migrant Housing Backed By Rogers

Congressman Paul G. Rogers today testified before the House Subcommittee on Housing of the Committee on Banking and Currency, in support of his bill, H. R. 422, which would provide for Federal insurance on loans by private investors for construction of Migrant Labor Housing.

The Rogers' bill was introduced during the last Congress, adopted by the Committee and included in the Housing Bill of 1958, which failed to get favorable consideration by the full House during the last days of the Session. A new bill therefore was necessary.

In his statement to the Subcommittee today, Mr. Rogers pointed out the need for better housing conditions for migrants; "The need is great, and only when we can provide decent housing can we hope to clean up the deplorable conditions now existing in the labor camps and farms where migrant labor is housed," Congressman Rogers testified.

The Rogers' bill would provide Federal insurance for private loans, where such loans would not bear interest in excess of 6 percent. The government would charge the lender 1 percent to cover costs of the program.

This legislation has had wide support, including the President's Committee on Migrant Labor. State Representative Emmett Roberts of Belle Glade, Florida, was

a motivating force bringing about this legislation, as Chairman of the State Inter-Agency Committee on Migrant Agricultural Labor of the Council of State Governments.

Roy Rogers Names List Of All Time Cowboy Stars

TAMPA—As a top ranking cowboy star who has entertained two generations of Americans in every walk of life, Roy Rogers not only has a reverence for the traditions of the old west, but for the cowboy star who helped preserve the legends of frontier life.

Roy, who will headline an all-star western show at the Florida State Fair at Tampa February 3-14, has his own favorite list of all-time cowboy greats.

Will Rogers tops his list. "Although Will became famous as a columnist and all-round entertainer, he was a cowboy at heart and never forgot that he got his start as a cowboy personality," Rogers points out.

Along with Will Rogers, Roy includes two boyhood favorites, Buck Jones and Hoot Gibson.

And to round out his list Roy picks William S. Hart, Tom Mix, Harry Carey and Dustin Farnum as all-time range heroes.

In years to come, Rogers believes that people will remember such stars as Gary Cooper, Gene Autry and Joel McCrea as having the same fine qualities as the all-time favorites in his list.

Schools Are High On Priority List

TALLAHASSEE—State Budget Director Harry G. Smith told the Florida Congress of Parents and Teachers recently that despite the state's strained financial condition all essential services would be financed the next two years.

Secretary of State R. A. Gray told the PTA legislation conference that the state's financial cupboard wasn't bare but it wasn't as well stocked as it had been and education must expect to take its share of any cuts.

The PTA was asked to support two proposed constitutional amendments the education department will probably submit to the Legislature. One would permit county school boards to levy up to 20 mills for school operations without a vote of the people. Another would authorize a referendum on the question of appointed rather than elected county school superintendents.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4442.

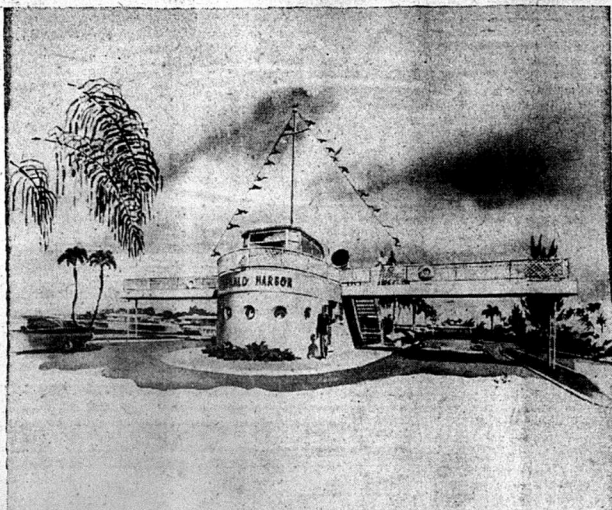

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

Christian Science Group Of Canal Point

The healing power of spiritual
enlightenment will be emphasized
at Christian Science services Sunday.

Paul's healing of the cripple at
Lystra, as related in the Book of
Acts (Ch. 14), will be included in
the Scriptural selections in the
Lesson-Sermon entitled "Spirit."

A correlative passage to be read
from "Science and Health with
Key to the Scriptures" by Mary
Baker Eddy declares (324:19):
"Paul was not at first a disciple of
Jesus but a persecutor of Jesus'
followers. When the truth first
appeared to him in Science, Paul
was blind, and his blindness
was felt; but spiritual light soon
enabled him to follow the example
and teachings of Jesus, healing the
sick and preaching Christianity
throughout Asia Minor, Greece, and
even in imperial Rome."

The Golden Text is from I John
(4:6, 13): "We are of God: . . .
Hereby know we that we dwell in
him, and he in us, because he hath
given us of his Spirit."

Researchers Will Study Fire Ants

GAINESVILLE—The University
of Florida Agricultural Experiment
Station plans to initiate a re-
search project to determine the ef-
fects of the fire ant eradication
program. The work will have the
support of the State Plant Board
and the Game and Fresh Water
Fish Commission.

The project will measure the ef-
fects of the insecticides applied on
various insects, birds and animals
as well as on the fire ant itself,
over a period of several years.

Officials of the Game and Fresh
Water Fish Commission have been
concerned about effects of the fire
ant program on fish and wild life.
Sportsmen and farmers also have
been at odds over the program.

Mr. and Mrs. H. J. Anderson has
as guests the first of the week the
Rev. and Mrs. Daniel Still of Fin-
land and Mr. and Mrs. Axel Mollan
and daughters, Linda and Mona of
Miami.

Day Of Prayer Is Planned By School

Annual World Day of Prayer will
be observed in Pahokee Friday,
Feb. 13, when students at Pahokee

ene Scott's and Mrs. Mae Laffin's
Fifth Grade Rooms at the Element-
ary School will present a morning
program in the auditorium at 9
o'clock, with Mrs. Thomas in
charge of arrangements. Members
of the Pahokee High School Senior
Class will present the program in
the afternoon. The two observance
programs are being sponsored by
the Methodist Woman's Society of
Christian Service. The public is in-
vited to attend.

—but you can't live in it!

Make your dream house come true! It's easy
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity.

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,948.95 cash. In 9 years, 8 months, you'll have \$7,217.29!

So don't let down payments get you down. Meet your needs for ready cash the way more than 3 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest on current income, ask your bank about Series 'E' Bonds, which pay dividends monthly by Treasury check.

Choose your own savings goal

Uncle Sam Says Tiny Envelopes Must Go!

2 3/4 inches by 4 inches
No Envelope Smaller
Effective July 1, 1959

YOUR UNCLE SAMUEL SAYS that tiny envelopes which have given postal authorities so much trouble in the past will be eliminated from the mails come July 1, 1959. The size shown immediately above is the smallest you can mail after July 1, according to a recent ruling by the Post Office Department in Washington. Tiny birth announcements, shower notices and envelopes of various kinds smaller than the one shown above have had their day, so prepare for the new mailing instructions on July 1.

Collegiate Circus Alive And Kicking

Even though old-time big top is dead, Florida State University's world famous collegiate circus, Flying High, is alive and kicking.

Launched nine years ago by a physical education professor, Jack Haskin, now mainly known as "Circus Coach" at FSU, the all-student circus has become stronger and more widely known every year of its life.

Flying High played to its largest one-day audience, and estimated 70 million, over the TV network on the Sealtest Big Top Hour and the Dave Garraway Show.

Renown has come to the university circus through features in such magazines as Life, Seventeen and The American, in foreign newspapers and periodicals, and in movie shorts by RKO, NBC-TV, Fox Movietone and Paramount, released abroad as well as in this country.

Like the traditional professional circus, the collegiate version is an outdoor show. Every fall it hits the road to give performances in small towns as well as cities throughout Florida, Georgia and Alabama as well as two trips to Philadelphia and New York.

Coach Haskin prefers to play towns of about 50,000 because the news, "Circus is coming to town," electrifying - grandparents as well as toddlers turn out because there is little if any scheduled entertainment to compete with circus.

Flying High has no lap or high cost problems, and a few weather worries. Outdoor rehearsals are held year-round at the circus practice field on the campus in Tallahassee. Visitors are always wel-

come at the field, and often see performances worth an admission price.

All student enrolled in the university can go out for circus. Try-outs are held annually in the fall, and the most promising performers are chosen. Coach Haskin and his assistant, Jim DeCosmo, limit the troupe to about 150 for best results. Since there are veteran hold-over performers, sophomores, juniors and seniors, only about 50 new students can be taken into the troupe each year.

After intensive daily practices in the fall, the circus is ready for road trips about November 1. Trips are scheduled on weekends so as not to interfere with class room work. From 50 to 60 student performers make each road trip. The schedule is planned so that every member of the troupe makes several trips, providing he is maintaining a C or better scholastic average.

The troupe travels in its own clown-decorated circus bus, and carries its own equipment. Advance cars carry the student riggers and heaviest equipment.

Out of town shows are arranged by Haskin or DeCosmo. Usually civic clubs sponsor the FSU circus as a benefit - because the circus is a sure money-maker when well managed, and accepts only travel expenses. Any additional money from admissions go to the sponsoring organization for charity.

The troupe is closely knit organization. The coaches, Haskin and DeCosmo and troupe leaders have even more fun than their fans.

Mrs. Perry Duke is a patient at the Everglades Memorial Hospital this week.

Harold Wilkinson is spending three weeks in the Homestead area on business.

PIRATE INVASION—Movie Starlet, Rita Sands, boats up to her recent lot purchased on Punta Gorda Isles, Punta Gorda, Florida, in appropriate pirate costume. In the background, are some of the \$250,000 in homes currently under construction at the \$7,000,000 all-waterfront development. Rita, a native of St. Petersburg, will appear on the Red Skelton TV show to be filmed in Miami on February 4

and "Oh Boy!"

THE NEW FORD GALAXIE

It's 59's newest and most exciting car. It's married in looks and in luxury to the elegant Thunderbird. And it's the Most Beautiful Wedding of the Year.

If the Thunderbird ever grew into a six-seater, this would be it! It's "Thunderbird" in every way but price. It has the classic Thunderbird roof... Thunderbird comfort with plush carpeting and foam front-seat padding... Thunderbird V-8 "GO," too. You never had it so Thunderbird for so little.
